

# Male Reproductive System

MassageNerd.com

## Across

- 1 sac-like structures attached to the vas deferens to the side of the bladder.
- 6 inflammation of the epididymis, the coiled tubes that connect the testes with the vas deferens.
- 7 doctor or clergy member cuts away the foreskin.
- 9 main part of the penis
- 10 located entirely within the pelvis, the male has reproductive organs, or \_\_\_\_\_
- 13 \_\_\_\_\_ glands, including the seminal vesicles and the prostate gland, provide fluids that lubricate the duct system and nourish the sperm.
- 15 major part of puberty in guys, and as a guy makes his way through puberty, his testicles produce more and more of it.
- 20 smaller gametes involved in fertilization in anisogamy and oogamy.
- 21 muscular tube that passes upward alongside the testicles and transports the sperm-containing fluid called semen
- 22 varicose vein (an abnormally swollen vein) in the network of veins that run from the testicles.
- 23 actually made up of two parts: the shaft and the glans

## Down

- 2 Sperm develop in the testicles within a system of tiny tubes called the \_\_\_\_\_
- 3 Alongside the testicles are the \_\_\_\_\_ and the vas deferens, which make up the duct system of the male reproductive organs.
- 4 disorder in which the urethra opens on the underside of the penis, not at the tip.
- 5 produces some of the parts of semen, surrounds the ejaculatory ducts at the base of the urethra
- 8 portion of the intestines pushes through an abnormal opening or weakening of the abdominal wall and into the groin or scrotum
- 10 tip of penis
- 11 seminal vesicles and prostate gland produce a whitish fluid called \_\_\_\_\_
- 12 epididymis and the testicles hang in a pouch-like structure outside the pelvis called the \_\_\_\_\_
- 14 \_\_\_\_\_ produce and store millions of tiny sperm cells.
- 16 Semen is pushed out of the male's body through his urethra — this process is called \_\_\_\_\_
- 17 fold of skin at the end of the penis covering the glans.
- 18 occurs when fluid collects in the membranes surrounding the testes.
- 19 channel that carries the semen to the outside of the body through the penis.
